

Amendments to the Specification:

Please replace paragraphs [0018] through [0022] with the following amended paragraphs:

[0018] Fig. 3[[2]]A is a cross-sectional view of a portion of a building site that has been prepared for the pouring a concrete foundation and in which a sealing member is ready to form a seal with a moisture barrier.

[0019] Fig. 3[[2]]B shows the cross-sectional view of Fig. 2A in which the sealing member has been moved along the stake to a location adjacent the moisture barrier membrane.

[0020] Fig. 3[[2]]C shows the cross-sectional view of Fig. 2B in which concrete has been poured over the moisture barrier membrane.

[0021] Fig. 3[[2]]D shows the cross-sectional view of Fig. 2B in which the forms have been removed from the poured foundation and a portion of the stake has been broken away.

[0022] Fig. 4[[3]] is an enlarged perspective view showing the sealing member forming a seal where the stake has pierced the moisture barrier membrane.
